Office with Drs. Cunningham and Richards

MORROW & HUSSEY BLOCK

If you should hear, incidentally, that your favorite store had had an unadvertised special sale of something you've been wanting to buy, you'd feel that it had not protected your interests—wouldn't you?

A merchant who knows he can make it pay you to patronize his store will advertise accordingly—listing reasons and price facts.

ASSOCIATED MILL AT MANHATTAN MAKES NEW RECORD TREATING ORE

Special to the Bonanza
MANHATTAN, Nov. 1.—A record of treating 1500 tons of ore from the White Caps alone was made by the Associated mill during the month of October, just closed. This is with some time having been employed on other ore and the unavoidable and unexpected delays that invariably occur in a month of milling.

The average value of the ore was better than expected. It came from the east drift of the White Caps, where the grade was supposed to be around \$16 a ton, yet this went \$22 better and yielded \$18 for the month.

A Harmless Way To Darken The Hair

OLD FASHIONED REMEDY BRINGS BACK COLOR TO GRAY HAIR AND MAKES IT GROW

Who does not know the value of Sage and Sulphur for keeping the hair dark, soft and glossy and in good condition? As a matter of fact, Sulphur as a natural element of hair, and a deficiency of it in the hair is held by many scalp specialists to be connected with loss of color and vitality of the hair. Unquestionably, there is no better remedy for hair and scalp troubles, especially premature grayness, than Sage and Sulphur, if properly prepared.

The Wyeth Chemical company of New York put out an ideal preparation of this kind, called Wyeth's Sage and Sulphur Hair Remedy, in which Sage and Sulphur are combined with other valuable remedies for keeping the hair and scalp in clean, healthy condition.

If your hair is losing its color or constantly coming out, or if you are troubled with dandruff or dry, itchy scalp, get a 50 cent bottle of Wyeth's Sage and Sulphur from your druggist, use it according to the simple directions and see what a difference a few days' treatment will make in the appearance of your hair.

All druggists sell it, under guarantee that the money will be refunded if the remedy is not exactly as represented. l-adv.

Skin On Fire?

Just the mild, simple wash, the well known D.D.D. Prescription for Eczema, and the itch is gone.

A trial will prove it. We have sold other remedies for skin trouble but none that we can guarantee as we can the D.D.D. remedy. If the first regular size \$1.00 bottle does not do exactly as we say, it will not cost you a cent.

JOS. C. CIERCY
"Rexall Store"

SERIAL NUMBER 01789

DEPARTMENT OF THE INTERIOR

U. S. Land Office at Carson City, Nevada, October 8, 1912.

Notice is hereby given that Samuel F. Mount of Keystone, Nevada, who, on April 10, 1908, made desert land entry No. 557, serial No. 01789, for NW. 1/4, NE. 1/4, NE. 1/4, NW. 1/4, S. 1/4, NW. 1/4, N. 1/4, SW. 1/4, SE. 1/4, SW. 1/4 and SW. 1/4, SE. 1/4, section 27, township 10 north, range 49, E. M. D. meridian, has filed notice of intention to make final desert land proof, to establish claim to the land above described, before the county clerk of Nye county, at Tonopah, Nevada, on the 10th day of November, 1912.

Claimant names as witnesses: Joseph T. Williams of Hot Creek, Nev.; Lloyd F. Mount of Keystone, Nev.; J. M. Douglass of Keystone, Nev.; Louis Hempel of Tonopah, Nevada.

LOUIS J. COHN, Register.
Date of first publication Oct. 9.

For quick results try the want ad columns of the Bonanza.

Don't you think that the store that's paying for publicity in the Bonanza, is apt to have a reason for wanting it—just as the store that is not advertised may have reasons for avoiding publicity?

AT THE CASINO TONIGHT—So-prano solo by the famous leader from Koth and his's show.

If you "Keep Boarders" at all, why not keep enough boarders to make it pay? A small campaign of classified advertising in the Bonanza will keep you busy.

AT THE BIG CASINO—Something new tonight. Program changed every night.

Thus the approximate gross output of the mine for the month was \$27,000.

This is one of the results of improved equipment at the mine, and to the further fact that the mill is running smoothly and no serious accidents occurred to delay operations a lot of the good fortune in making this enviable record is due.

The Kirchen syndicate, operating the White Caps, is prepared to resume sinking and will start upon it at once. From the 230-foot level, the present maximum depth, the shaft will be lowered at once to 330, or 100 feet deeper instead of 60, as required by the leasing contract.

Timber for the shaft has arrived and lies on the ground near the shaft. Everything being in readiness for the resumption of sinking, it will be started immediately and crowded to the utmost until the 100 feet farther is attained.

From that level a drift will be driven easterly to catch the big ore body from whence the present record millings are coming. This will not be stopped from the 230, nor a drift run in that direction there, but from the 330 entirely.

A west drift also will catch the richer ore shoot that made an average record for the mine at \$46 a ton. This has been stopped from the 165 to a considerable extent and opened by a drift on the 230, but this, likewise, will be worked mostly from the 330.

In other respects work at the White Caps has fallen into a routine and is going on without a break. The main variation is in the constantly increasing tonnage, which is making headway day by day to reach the 100 ton daily production from the former strained output of 55 tons which barely kept the Associated mill in ore during the summer.

Good values are being found in a big fault at the west end of the White Caps group, which is on the Consolidated side of the hill. In Consolidated gulch and adjoins the Consolidated and the Morning Glory. The values there run from \$10 to \$12, but thus far are not in a regular ledge. They lie alongside a blue lime dike and are portentous of something big in that locality.

Superintendent J. J. McCarthy holds to the theory that the White Caps ledge is a continuation of that of the Consolidated and the general one running from east and west through the camp. He believes the fault between the two properties is of much greater size than others in the camp, extending over a width of some five or six hundred feet, as it also varies from others in that it would have to be a north instead of a south throw. In working upon that theory he has had many trenches dug and a shaft sunk in Consolidated gulch where the ore in some kind of a big streak is yielding assays in values as stated. This showing when once it takes the form of a ledge with regularity will be the scene of a lot of bigger work upon the part of the Kirchen syndicate.

AMUSEMENTS

Butler Theater

The program at the Butler theater this evening is one of the good ones given at this popular place of amusement. Four pictures will be shown as follows: "A Double Danger," a Vitagraph drama of great interest; "Romance of the Coast," Lubin drama; "The Cowboy's Mother," a Selig western drama; and a big Biblical picture entitled, "A Prince of Israel." This is truly a great offering. It deals with the rebellion of Absalom against his father, King David, and it is very dramatic. It is beautifully set in Palestine, finely cast and acted by a host of players, and splendidly hand painted. It is positively a long advance over other Biblical pictures shown here.

The management wishes to announce that owing to a change in the plans of the democratic committee they will not hold their meeting here Saturday eve. Three regular performances will be given. The free matinee for children will be given as advertised.

Advertisements in the Bonanza bring big results.

If you want to sell your goods use the columns of the Bonanza. It gets results.

HYPATIA READING CLUB STUDIES THE SYMPHONY

The origin, development and supreme importance of the symphony claimed attention of the Hypatia Reading club yesterday, and of this Haydn is commonly styled the father, next in chronology stands Mozart, and the great name of Beethoven towers above all.

Mozart was the first to evince the very fine sense which perceives the variety and disparity of qualities, how some sounds will mix with, and some will penetrate through others, how some instruments by pouring forth a stream of harmony may enrich or nourish a melody that floats on its surface in another quality of tone.

The lessons began strictly at 2 o'clock, at the residence of Mrs. W. G. Adams, and all must be praised for their prompt attendance.

WHEN YOUR EYES NEED CARE TRY MURINE EYE REMEDY
No smarting—No Pain—No Irritation. Try it for Red, Watery Eyes and Granulated Eyelids. Illustrated Book in each Package. REMINGTON UMC
AUTOLOADING SHOTGUN
For singles—trap or field—just toss in a shell, press the button and—"PULL." The side bolt makes it easy. You don't have to tug at the barrel or watch an on-and-off device. The action stays open after each single shot is fired. It always stays open when the magazine is empty. Five shots—three to get the cripples—each under absolute control of the trigger finger. The recoil loads for you—kicks another shell in; takes the strain of the gun—the discomfort out of the kick—all without diminishing the drive behind the shot.
Simple take-down—a few turns of the readily handled magazine screw-cap makes cleaning, carrying and interchange of barrels quick and easy.
Send for a motion picture booklet telling how the kick is used—how a friction device found only on the Remington-UMC Autoloading Shotgun takes the punishment out of heavy loads.
Write to-day.
